# WE WILL FT A.R.T

Promises made  
A dollar they saved  
Hardened brown hands  
Dreams that would fade  
But we don't know what we don't know  
They threatening to let go  
And be done One by one  
They're coming for us

## CHORUS

*Cos we will  
My brother we will be free  
And we will  
My sister one day you'll see, that we  
Have the strength  
We've just got to believe  
That we can  
So stay strong  
We will win  
We will win!*

Searching for a better life for us  
Build a future, opportunity galore for us  
Lurking in the dark, they put a clamp on us  
But they won't break us  
Our strength comes from our culture that  
Teaches us that love is the way to act  
We've got more mana than they can see  
So let's rise and claim our victory

## CHORUS

And just like my ancestors before me  
I will not break, I'll be set free  
The power that runs through my veins,  
will be witnessed here today  
So tell them, tell them

## CHORUS

# IF WE HOLD ON

FT SWISS & TREE

I used to think tomorrow wouldn't come  
Another day of life spent on the run  
I dared to dream but they would push  
me back  
Now I'm lost in a world I don't  
understand

Hope is fading getting dark  
I don't know how to carry on  
But somewhere in the dark night  
I see the light at the end shine bright

## CHORUS

*If we hold on  
Then we can find a way to bring a  
better day  
If we hold on  
We know that God will provide  
Always there by my side  
If we hold on  
we will get through the storm,  
and feel the love that surrounds us  
If we hold on*

Through the tears, it pained me to see,  
A world where hope seemed far away  
from me  
Through every trial, I've come to realise,  
The fire within me will never die

Through the struggle, through the fight  
We have to stand for what is right  
With faith, we'll break the chains,  
And see the sunshine after the rain

## CHORUS

Then you'll find that true belongin'  
Your cup is filled without a doubt  
And we can stand tall  
Against the downfall  
You'll find the strength right through it  
all  
in the midst of when you fall  
But we are stronger than one  
So hold on

# REACH THE SKY

I don't know what to do  
Now I'm feeling black and blue  
Chasing the echoes of  
A place that I once knew

In search of the promised land  
But all I got are my empty hands  
A tease of the wonders that  
I thought this place would give

I feel like I'm losing myself  
Who I am  
What I'll be  
Wandering aimlessly

## CHORUS

*I'm giving all that I got - it don't matter  
If I'm falling apart - it's gets better  
You see me far from home aiming high  
I'm gonna reach the sky*

In the shadows of the night  
Trying to find a way out  
Silently struggling  
Fighting through the fear

Footsteps at the door  
Howling that I can't ignore  
Feeling the heavy chains  
But that won't stop me now

They think that I'm losing myself  
But I know  
Who I am  
They can't take that from me
